1. The foundation of a new power plant was laid in November 1949 in the town of Pernik. This power plant will generate 6,000 volts and covers an area of over one acre. The plant is within the limits of the town proper.
2. The plant is said to be a part of the Bulgarian Five Year Plan. Trudovak labor is used exclusively. In March 1950 construction of the main building had reached to the second floor and no machinery had been installed.
